

Creative Lab Department SOP (CRM-Based Event Workflow)

The Creative Lab (Design & Video Team) will operate through a **centralized CRM system**, where every task is structured around **event-based content creation**. Each event will be treated as a separate workflow unit to ensure clarity, speed, and quality.

1. Event Creation in CRM

For every program, meeting, or activity, a **new event card/task must be created** in the CRM.

Each Event Entry Must Include:

- **Event Name & Date**
- **Event Type:** (Press Event / Field Visit / Festival / Announcement)
- **Raw Content Upload Section:** Photos & Videos
- **Assigned Team Members:**
 - Lead Designer
 - Lead Video Editor

2. Creative Lab Responsibilities

The Creative Lab is responsible for transforming raw content into **platform-ready visual assets**.

A. Image Handling

- Review all raw photos uploaded under the event
- Select the best images based on:
 - Clarity and resolution
 - Expressions and relevance
 - Overall storytelling value

B. Video Production

- Identify key moments from raw footage
- Edit videos/reels with:
 - Clean transitions

- Proper pacing
 - Clear narrative flow
- Coordinate with the team if additional footage is required

C. Graphic Design

- Create graphics where required (announcements, creatives, etc.)
- Maintain:
 - Consistent visual identity
 - Minimal yet impactful design language
 - Cultural and contextual relevance

3. CRM Workflow Stages (Creative Lab)

Each event will move through the following stages inside the CRM:

1. **Raw Content Uploaded**
2. **In Editing (Design / Video Work in Progress)**
3. **Internal Review (Creative Lab QA)**
4. **Ready for Approval (Final creatives prepared)**

4. Internal Quality Check (Mandatory)

Before marking content as “Ready for Approval,” the Creative Lab must ensure:

- Correct number of images per platform
- High visual quality and consistency
- Proper sequencing of images (especially for Instagram)
- Video quality, audio clarity, and clean editing
- No duplication or irrelevant content

5. File Naming & Management

All files must follow a **standard naming convention**:

Format:

`Date_Event_Platform_Type_Version`

Example:

20Apr_KisanEvent_Instagram_ImageSet_V1

All assets must be uploaded and organized within CRM or linked cloud folders under:

- Raw Content
- Edited Content
- Final Output

6. Timeline & Delivery Discipline

For each event, the Creative Lab must adhere to strict timelines:

- **Image Selection:** Immediate after raw upload
- **Video Editing:** Within defined turnaround time (same day / next day based on complexity)
- **Creative Completion:** Before approval deadline

Any delays must be:

- Updated in CRM
- Communicated proactively

7. Final Output Handover

Once creatives are finalized:

- Mark the task as “**Ready for Approval**” in CRM
- Ensure all assets (images/videos/graphics) are properly uploaded and labeled
- Hand over to the next stage (approval process) without gaps
